

Hi Captains,

I'm sending this out to all captains because I want to address a few concerns that have been brought to my attention. Our texting service only allows so many characters so I thought this would be easiest way to get it all out!

1. Rosters- Anyone who is playing with your team needs to be on YOUR team's roster.

Example: If you show up and only have 4 players you may play with those 4 players. If you choose to have someone from another team play with your team that is an automatic forfeit and the other team will take the win for the match.

Example: If someone shows up to play that isn't on your team's roster you may still play the match but that will be an automatic forfeit for your team.

Moving forward the rosters will be posted in the gym before the match begins. If you feel like the other team is playing with someone who isn't on the roster it needs to be said before the match starts!

2. Rules/unfair calls- If you feel like a team is calling things unfairly against your team it needs to be replayed or said before the next serve. There are official rules that are posted on our website under adult sports, co-ed volleyball.
3. Tournament- There will be an official for the tournament. I will have more information about how the tournament will look closer to the beginning of March.

Thank you all and again if you need anything please reach out to me!

Melinda Akers
